

THE FRAMEWORK PROGRAMME FOR RESEARCH AND INNOVATION

HORIZON 2020

***First H2020 projects, ECHORD++  
and EuRoC  
"Impact beyond projects"***

**Cécile Huet, PhD**  
Deputy Head of Unit A2 Robotics  
**European Commission**

- Content • Forum for projects partners to exchange best practices and ideas to cooperate in order to maximise the impact of the individual projects and the programme
- The EC will present the requirements and expectations in terms of dissemination and impact
  - SPARC will also present the services and support the PPP offers
  - ECHORD++ and EuRoC will explain how the community can benefit from these projects and possibilities for collaboration

Agenda of  
the  
workshop

- 1) Being an EU-funding project:** Dissemination, exploitation, impact? [EC]
- 2) SPARC & Projects:** being a "SPARC" project & mutual benefits! [SPARC]
- 3) Clustering opportunities:** Goals? Criteria? Practicalities? [ALL: discussion]
- 4) Join efforts to optimise Outreach and Impact** [ALL: discussion]
  - a. Create critical mass in: presence in major trade fairs, invite high level decision makers
  - b. Joint efforts to increase visibility of the Robotics EC programme: dissemination activity and material, outreach to various audiences, disruptive ideas!
- 5) Echord++:** Service offered, how to optimise collaboration with other projects
- 6) EuRoC:** Contribution from current challenges and lessons learned, design of future challenges, how to optimise mutual benefits with other projects

# THANK YOU

ERF2015 - First H2020 Robotics projects & EuRoC & ECHORD++: Impact beyond projects

# HORIZON 2020
