

Which Step Change will our project
achieve in robotics technology and ability?

WiMUST

Widely scalable Mobile Underwater Sonar Technology

Market domain:
Marine Robotics (Civil &
Commercial)

- Geotechnical Surveying
- Distributed Sensor Array
- Geophysical Surveying
- Monitoring

Achieve reliable cooperative operations of 10 or more marine robots for a demanding challenge in terms of navigation, guidance, control, mission planning, acoustic communications and data acquisition for geotechnical applications.

How: what is our approach?

Validation plans
