Abstract. Please state the main line of research for your team. Explain the importance of your research, your approach and results you expect to obtain.

1 Introduction

The length of the TDP is limited to 4 pages. The TDP must contain the following information:

– Focus of research/research interests
– The team's approach to technical challenges
– List of relevant publications.
– Description of the hardware and software architectures
– Photo(s) of the robot

The following is simply a suggestion for the paper structure.

2 Team's main research
