European Robotics Week

The ninth year in a row, European Robotics Week turned out to be an amazing success. ERW was conceived by the European Robotics community to bring robotics research and development closer to the public and to build the future Robotics Society. More than 550,000 people across Europe have engaged with ERW since its launch in 2011.

European Robotics Week (#ERW2019) Central event in Poznan

Inspiring students of all ages to follow STEM studies

Brussels, 20 November - Industrial and walking robots, humanoids, Mars rovers, and many more could be seen last weekend in Poznan, the capital of the Wielkopolska region in Poland. The European Robotics Week 2019 features over 1,411 events taking place in 41 countries, and a Central event with the theme Robotics and AI Odyssey, which was hosted this year in Poznan.

“In the exhibitors’ zone one could see the leaders of the robotics market, like ABB. Right next to them, the scientific circles and the student team IMPULS from Kielce, this year’s winners of two of the most important Martian robot competitions, European Rover Challenge (ERC) and University Rover Challenge (URC). The European Robotics Week aims to inspire technological education among students of all ages and to highlight the importance of robotics in various areas. I think that the rich programme of attractions that we have prepared perfectly fulfilled both tasks” - adds Krzysztof Walas from the Poznań University of Technology, the coordinator of the event.

Interviews

At the European Robotics Week #ERW2019 Central event in Poznan, Poland, we interviewed speakers, company representatives, and attendees. Let's see what they have to say about the event and robotics education in Europe!

European Robotics Week (#ERW2019) Central event in Poznan

Inspiring students of all ages to follow STEM studies

Women workshop [\(video\)](#)

During a lively panel discussion which was ably moderated by Lavinia Cinca, PR & Marketing Manager, euRobotics, an expert line-up of presenters considered how to build a digital and technological future in which women have a strong presence and involvement. Contributions from an informed and lively audience added further to the panel's insights.

[Read the report](#)

Education workshop [\(video\)](#)

“No child left behind, no region left behind in the development of robotics”. This was the clarion call from a wide-ranging panel discussion on the theme of robotics education. The words were delivered by Uwe Haass, who opened and chaired the panel during European Robotics Week (ERW) 2019's central event at Poznań University of Technology.

[Read the report](#)

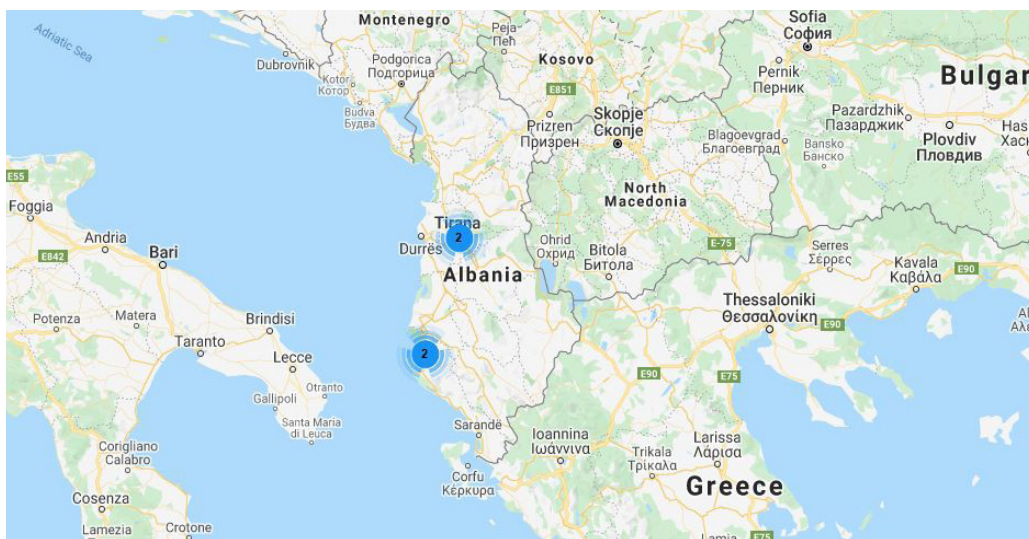

Robotics in CEE workshop [\(video\)](#)

In a workshop led by Krzysztof Walas from the Poznań University of Technology, host of the event, the audience had the opportunity to hear about the latest state of the art of robotics technology in Central East Europe, mainly Poland, Romania and the Czech Republic.

ARGENTINA

15.11.2019 - 24.11.2019 | 08:00 - 18:00

Hermanamiento España - Argentina para la Semana Europea de la Robótica
Buenos Aires, Argentina

Hide details

Néstor Balich y Susana Darín de la Universidad Abierta Interamericana (CAETI) han contactado con el Grupo Temático de Robótica Educativa de Hisparob para emprender una serie de colaboraciones entre ambos países que ha tenido como consecuencia que ya en esta Semana Europea de la Robótica se van a realizar varias acciones como visitas guiadas a los laboratorios de su universidad, charlas, talleres, etc. que se podrán seguir también en streaming desde España. De igual modo ellos seguirán de forma remota aquellas partes que lo permitan de nuestra Jornada ERW2019 de Sevilla el día 21. De esta manera establecemos unos puentes de comunicación y colaboración muy valiosos para el tejido educativo de ambos países.

HispaRob, Plataforma Tecnológica Española de Robótica y Universidad Abierta Interamericana (CAETI)

15.11.2019 | 12:00 - 15:30

TSI Robotics Day
Riga, Latvia

Hide details

Transport and Telecommunication Institute (TSI) invites all senior pupils on November 15, 2019 to an exciting event - TSI Robotics Day!

During the day you will have the opportunity to see and try out different robots, learn a lot about their functions and daily use, the development of the robotics industry, as well as various contests and prizes!

Event program

NAO Robot Programming

Creating a Chatbot (Virtual Assistant Systems)

Flying robots - drones

Industrial robot introductory lecture and demonstrations
as well as a special guest from the robotics industry!

Pre-registration is required

More info at www.tsi.lv

Target audience

Teachers and pupils from grades 10-12

LTH Robotics Laboratory demonstrations
Lund, Sweden

LTH
FACULTY OF
ENGINEERING

Hide details

For ninth year in a row the LTH Robotic Laboratory will be open for study visits. The European Robotic Week offers many robot-related activities around whole Europe. Our goal is to present the importance of robotic technology in several application areas. We also want to inspire young people of all ages to get interested in science and technology.

För nionde året öppnar vi robotlabbet på LTH för studiebesök. Den europeiska robotveckan erbjuder olika robotrelaterade aktiviteter för allmänheten runtom i hela Europa, och syftet är att visa på robotteknikens ökande betydelse inom en rad olika områden. Vi vill även inspirera ungdomar i alla åldrar att intressera sig för naturvetenskap och teknik.

1,213,556
ACCOUNTS REACHED

The European Robotics Week 2019 (ERW2019) is breaking all records with over 1,400 interactive robotics related events in 41 countries, showing how robots will impact the way we work, live, and learn. The #ERW2019 hashtag has reached over 5,5 million impressions on social media for the past 10 days. Let's have a look at some snapshots from #ERW2019 in various countries where it has been celebrated!

Italy and Spain have been leading ERW2019, with +300 events each, organised all over the 2 countries:

- The #ERW2019 is starting today and Verona is in! Check the map and find the event nearest to you. [Here's what we organized https://t.co/c76m3LT092](https://t.co/c76m3LT092) <https://t.co/gxMCm4kUbO> — AltairLab (@LabAltair) [November 14, 2019](#)
- #RT @carlosllvc65: RT @robotme_es: Estamos en plena semana europea de la robótica #ERW2019. Una actividad promovida por la asociación @eu_Robotics para destacar la importancia de la robótica en áreas como la industria, la educación, el ocio... Felices d... pic.twitter.com/cluBCW4hfb — Alberto Moya Torres (@AlbertoMoyaTor3) [November 22, 2019](#)

HispaRob looked into how robots can reduce social inequality.

Compartiendo experiencias en [#roboticaporlaigualdad](#) [#erw2019](#) [#jornada](#) [#PensamientoRoboticoelInclusion](#) pic.twitter.com/a8gjL602zF — HispaRob (@HispaRob) [November 21, 2019](#)

UKRobotics organised visits to the Lincoln Centre for Autonomous Systems.

Hack a Robot with [@LCAS_UoL](#) as part of #ERW2019! Program a robotic museum tour guide at the Lincoln Centre for Autonomous Systems - 14th, 15th, 18th, 19th, 20th, 21st and 22nd November. <https://t.co/8poLDFfwVO> #Robotics — UKRobotics (@UKRobotics) [November 13, 2019](#)

In 2019, France is back to the European Robotics Week and hosted the farthest event on the map.

France is back in the European Robotics Week #ERW2019, thanks to our [@auvergnerhalpes](#) robotic cluster : [@CoboteamRA](#) by [@Thesame74](#). We are also proud to had the farthest event in South Korea ! pic.twitter.com/xxNxmCLgag — MONTAUD Andre pro (@MontaudPro) [November 14, 2019](#)
