

European Robotics Week 2018 in Bosnia and Herzegovina

- 32 events organized across B&H
- Educational trip to Augsburg for 40 children and teachers from 6 cities was the highlight of the ERW2018
- Lot of other organizations were inspired by the trip and decided to be part of the ERW2018 for the first time.
- The ERW initiative was also presented on various workshops and talks (such as [TEDx Ferhadija](#) and Lean In Zagreb).

European Robotics Week 2018 in Bosnia and Herzegovina

One of the most important aspects of the trip was knowledge sharing. Upon their return, the participants were obligated to organize a presentation for their peers and talk about what they learned.

Each student has held a presentation to a minimum of 50 other students which make in total more than 1000 students.

BiH pozvana na centralni događaj Evropske sedmice robotike

We have also promoted the initiative and the trip on all the biggest TV and radio stations in B&H.

European Robotics Week 2019 in Bosnia and Herzegovina

- Create a map of robotics organizations and associations in Bosnia and Herzegovina
 - Establish a cooperation with the EU Info Center in B&H and be part of the European Researchers' Night
 - Establish a stronger cooperation with the coordinators from a nearby countries (Croatia, Serbia, Montenegro) → maybe organize a regional event?
 - Establish a connection with other coordinators (Romania?)
-
- Ideas for the EU Robotics Week initiative
 - Establish a connection with the IEEE association?
 - Establish a connection with the similar initiatives around the EU?
 - Find a way to bring coordinators closer together with the aim of exchanging knowledge, ideas and plans for the future.
