# **DT-ICT-02-2018: Robotics - Digital Innovation Hubs (DIH)**

**BUDGET: 66M€**

**a) Innovation Action – 64M€**

**=> 4 projects expected to be funded**

- 1 per Prioritised Application Area – 16M€/each**

**b) Coordination and Support Action – 2M€**

**=> 1 project expected to be funded**

**CALL DEADLINE: April 17 - 2018**

## 4 requirements to DIHs

- ❑ Consortia should be deeply **rooted** in regional/national DIH
- ❑ Critical mass of highly innovative, **cross border** experiments. At least 50% of the budget should directly benefit **SMEs** or slightly bigger companies.
- ❑ Activities should aim at long-term **sustainability** and include a business plan for the digital innovation hubs, a plan to attract investors, to address training and skills development needs and dissemination. Established networks reaching out to SMEs like the Enterprise Europe Network and the NCP network should be used.
- ❑ Selected projects are expected to collaborate on building a **network of Digital Innovation Hubs**, covering most regions in Europe.

# Proposals are expected to:

- develop a network of DIHs
- deliver services (technical and non-technical)
- access to best practice & research results relevant to the application area
- contribute to common system platforms
- engaging in the development of industry-led standards
- develop and disseminate standards demonstrators
- facilitate access to pilots
- collaborate with all the robotics actions funded in the WP and beyond, as appropriate.

## Proposals are expected to:

- ❑ connect, share expertise, and closely collaborate with the DIHs in the other PAAs via the Central Robotics DIH CSA.
- ❑ address ethical, data privacy and protection issues, and consider cyber-security issues (including security by design).
- ❑ support the development of use-case demonstrators at TRL 5 and above, preferably based on open system platforms.
- ❑ contribute to a Working Group that connects the actions funded in this WP with the Central Robotics DIH CSA to disseminate best practice, to coordinate access to technology, resources, demonstrators and open platforms, and to facilitate the cross development of platforms.
- ❑ .... (and any other relevant activities)

# Proposals are expected to:

- ❑ use **financial support to third parties** (FSTP) to support industry, in particular SMEs, in their digital transformation, through for instance, demonstrators and platforms development, technology transfer experiments, or other services (technical or non-technical), as appropriate.
- ❑ FSTP should comply with the conditions set out in part K of the General Annexes of the Work Programme.
- ❑ At least 50% of the budget is expected to be dedicated to FSTP and the maximum amount of FSTP is EUR 300.000 per third party for the entire action duration.
- ❑ EU contribution: 16 m€ for DIHs in each Priority Area (indicative)
- ❑ At least one action in each Priority Area will be supported.
